A Man died and went to heaven. When he got to the pearly Saint Peter told him that new rules were in effect due to the advances in education on earth. In order to gain admittance a prospective heavenly soul, he must answer two questions:

1. Name two days of the week that begin with "T";
2. How many seconds are in a year?

The Man thought for a few minutes and answered ...

1. The two days of the week that begin with "T" are Today and Tomorrow.
2. There are 12 seconds in a year.

Saint Peter said, "OK, I'll buy the Today and Tomorrow answer, even though it's not the answer I expected. But how did you get 12 seconds in a year?"

The Man replied, "Well, January 2nd, February 2nd, March 2nd, etc ... "

Saint Peter lets him in without another word.
